arco[®]
Experts in Safety

Arco is the UK's leading supplier of personal protective equipment, workwear and workplace safety products offering a world-class range of over 170,000 products.

As Experts in Safety we are widely recognised as a provider of specialist advice through our branch network and this is further supported by our training and consultancy division. We reach our customers through an extensive product catalogue, interactive website, local sales office and 41 strong trade counter network. We pride ourselves on providing customers with great availability, performance and price.

Founded in 1884 Arco has a heritage spanning four generations. With traditional family values at the heart of the business we pride ourselves on our core values; respect, hard work, enterprise and excellence in reputation. We fully subscribe to the ETI's Nine Principles Base Code and have fully incorporated the internationally recognised code of labour practice into our own ethical policy. In 2007 Arco was the first distributor in our industry to become a member of the Ethical Trading Initiative (ETI) and in 2010 we became a member of Sedex, the Supplier Ethical Data Exchange. We continually support local communities and charities donating in excess of 1% of pre tax profits annually.

As we are members of the BSIF Registered Safety Suppliers Scheme you can be confident that we will supply safety equipment which is genuine and compliant with the relevant standards and regulations. The BSIF monitor and regulate members of the scheme by conducting regular standards audits.

KÄRCHER
makes a difference

Introduction to Kärcher

The name Kärcher is synonymous with high performance, quality and cleaning expertise that set standards. As the inventor of high pressure cleaners, Kärcher is today a world market leader and one of the driving forces behind technological development.

The most recent milestone in development is the anthracite colour system that is now used for all Kärcher Professional machines. The colour system is not simply a stylistic change, but rather the result of a customer orientated focus when dealing with innovation and technology. This came about from frequent customer requests for discreet and inconspicuous machines. The new colour has allowed for a simplification in the operation of the machines. It also allows for differentiation with the domestic range which will remain yellow.

It's not just good looks! The Kärcher professional range stands for a combination of cutting-edge design and practical technology that result in superb cleaning performance.

1) Robustness

The choice of material and high-quality processing means that all Kärcher Professional machines have a unique resilience giving them longevity over domestic machines.

2) Unique User-friendly Controls

A standardised operating system with colour coding across the full range means that users can quickly get to grips with how to operate every Kärcher Professional machine.

3) Ease of Service

Each Kärcher Professional machine comes with a fully removable casing and colour coded maintenance plan enabling easy service by the user.

4) Reliability

The use of cutting edge technology along with fewer components results in greater reliability and easier maintenance.

Industry Key

Wet and dry vacuum cleaners can take on all types of dirt regardless of whether it is indoors or outdoors, dry, damp, or liquid. We stock a range of Kärcher Professional wet and dry vacuum cleaners designed with 'TACT'. These machines are able to pick up large quantities of both fine and coarse dust without interruption because of the TACT automatic filter cleaning system.

Kärcher NT35/1 TACT Wet and Dry Vacuum Cleaner

A Powerful and extremely robust vacuum cleaner equipped with TACT automatic filter-cleaning device.

- On/Off switch for TACT system with LED display
- Integrated accessory holder on back of the machine
- Innovative Eco flat pleated filter system for increased filter capacity
- Space to store suction hose and power cord on the turbine head
- Large recessed flat tray on top of the unit for holding tools

110V 32K0063
240V 32K0062
Filter bags 32K0064

Kärcher NT45/1 TACT Wet And Dry Vacuum Cleaner

A powerful and extremely robust wet & dry vacuum cleaner equipped with TACT automatic filter cleaning device. Designed for continuous removal of even very fine dust without blocking up the filter to minimise downtime.

- Innovative Eco flat pleated filter system
- On/Off switch for TACT system with LED display
- Integrated accessory holder on back of the machine
- Storage for suction hose and power cord on the turbine head
- Large recessed flat tray on top of the unit for holding tools

110V 32K0068
240V 32K0067
Filter bags 32K0069

Kärcher IVC 60/24 TACT Wet and Dry Vacuum

A highly compact industrial vacuum cleaner for wet or dry dirt featuring Kärcher's unique TACT automatic filter cleaning device.

- Stainless steel body and tub, tubular steel frame with large wheels.
- Flat pleated filter
- TACT filter clean system prevents filter from blocking and prolongs life
- Integrated pre-separation cyclone ensures large particles are separated before entering the filter
- Easy to use container set-down/pick-up mechanism
- Automatic cut-off when container is full

240V 32K0076

Kärcher NT27/1 Wet and Dry Vacuum Cleaner

A Robust all-purpose vacuum cleaner for professional applications. The NT27/1 can pick up large quantities of wet or dry dirt, and accommodates all accessories and a power cable on the unit.

- Cover doubles up as a storage area for tools and accessories
- Ergonomically designed carrying handle makes the unit easy and convenient to transport
- Mechanical float system cuts off vacuum motor as soon as the container is full
- Practical Clip System for easy accessory changes
- 5 smooth running swivel castors ensure excellent mobility and stability
- Large On/Off switch for easy operation

240V **32K0057**
Filter bags **32K0058**

Kärcher NT45/1 TACT Te H class Wet and Dry Vacuum

A powerful vacuum with an anti-static system for protection against dangerous static build-up while picking up dust in a H class environment.

- Complete with electrostatically grounded accessories which allow safe use for all cleaning tasks
- Hose selector enables the diameter of the connected hose to be selected on the control panel
- Autostart feature (for power tools)

240V **32K0072**

Kärcher N70/2 Wet and Dry Vacuum

A tough, high capacity vacuum cleaner designed for demanding professional use.

- 70 litre container capacity
- Independently switched motors ensure high suction power
- Integrated accessory storage on the back of the machine
- Drain hose for easy container emptying
- Sturdy chassis with large wheels and castors for high mobility
- Large cartridge filter with mechanical shut-off device to prevent overfilling

240V **32K0070**
Filter bags **32K0071**

Kärcher NT80/1 B1 M ATEX M class Wet and Dry Vacuum

An all-purpose vacuum cleaner. User-friendly, single motor wet and dry vacuum cleaner particularly suitable for the removal of hazardous dusts.

Unit includes compact fan housing, continuous anti-static system and a stainless steel container. The machines also have a floor tool holder, two large back wheels and two castors (electrically conductive), one of which has a brake.

- Double float system cuts off the motor once the maximum fluid level is reached
- Large cartridge filter enables long periods of uninterrupted use
- Filter status indicator shows when the filter requires changing
- Integrated accessory storage
- Approved to the new ATEX regulations – Dust class M

M **32K0074**
MS **32K0075**

Vacuums **Dry**

Kärcher dry vacuum cleaners are developed to meet the needs of hotels, offices, retail and professional contract cleaners. For a wide variety of cleaning tasks which require good area performance and flexibility for use on the most diverse types of floor coverings. The main features of Kärcher dry vacuum cleaners are significantly quieter operation, energy saving and complete accessory integration.

Kärcher T10/1 Adv Vacuum

A high value tub vacuum that offers the toughness, performance and value contract cleaners demand.

- Quick release mains cable, reducing the risk of damage
- 12 metre power cable, giving a wider cleaning range thereby increasing efficiency
- Cable wrap to ensure cable is neatly stored when not in use
- Anti-static suction bend reducing static shocks
- Washable fleece filter basket, offering improved filtration over nylon baskets
- Crevice tool as standard

Kärcher T12/1 Eco! Efficiency Vacuum

An advanced dry tub vacuum cleaner with low energy consumption with excellent ergonomic properties and compact design.

- Large foot operated On/Off switch for ease of use
- Accessory storage on the back of the machine and integrated power cord storage around the turbine head
- All round bumper, protects the machine, furniture and other obstacles
- Optimised air stream technology but with 40% less energy consumption and a noise level of only 56 dB(A)
- Uses 40% less energy while maintaining 98% of suction performance

240V	32K0059
Paper Filter Bags	32K0060

Kärcher CV 38/2 Upright Vacuum

A tough, high performance upright vacuum cleaner for professional applications.

- Patented removal system for fast, dust-free replacement of filter bags
- Tear-resistant fleece-filter bag
- High quality, low noise suction hose
- Quick-release handle adjustment to suit all operators
- Low nose height for easy access under objects
- Low weight enabling fatigue-free operation
- Accessory tools stored on the back of the machine for quick access

240V	32K0059
Paper Filter Bags	32K0060

Vacuums **Back Pack**

Kärcher Backpack Vacuums are designed for quick and effective cleaning of hard to reach quick turnaround areas. These vacuums can dramatically increase productivity in cleanliness-critical areas.

Kärcher BV5/1 Backpack Vacuum

- Features a 5 litre capacity and a single powerful vacuum motor
- Patented Air Stream Comfort strap system with ventilation and wide adjustment range ensures operate comfort over long periods
- Ergonomic design keeps controls and accessories easy to reach at all times
- Permanent, washable main filter basket allows the machine to operate with or without filter bags
- Standard fleece filter bag and optional HEPA filter bag
- Exceptional dust filtration
- Wide range of accessories to suit individual applications

BV5/1	32K0083
Battery Powered	32K0084

Carpet Cleaner

Kärcher Puzzi 100 Spray Extraction Carpet Cleaner

A powerful spray extraction unit designed for easy, efficient deep cleaning of carpets, upholstery and textile flooring. Powerful 1 bar spray rate, the water and detergent solution is applied to the area being cleaned and picked up immediately by the vacuum nozzle. Carpets dry up to 63% faster.

- Convenient storage compartment for detergent tablets
- Separate fresh water tank with filter element enables long operating periods
- 2 large wheels and 2 castors for excellent manoeuvrability
- 2 push buttons (spraying & vacuuming) gives the option to pre-spray, before vacuuming
- Removable dirty water tank for easy disposal of waste

32K0026

Pressure Washers

Kärcher invented the high pressure cleaner in 1950 and has been refining the technology ever since to produce machines with higher performance, lower consumption, longer service life and shorter cleaning times. At Arco, we have selected a varied range of versatile products with advanced technological features that are suitable in a variety of industries.

Kärcher HD 6/13 C Plus Pressure Washer

Designed for high performance cleaning of machinery, vehicles or yards on a daily basis.

High water flow and pressure rates with this machine ensure thorough cleaning results even with stubborn dirt, while the variable pressure and water flow rate ensure quick, efficient results. This pressure washer is ideal for fast and tough cleaning jobs on the farm, in the workshop and in car fleets and dealerships.

- 3 piston axial pump with brass water inlet and cylinder head for long service life
- Automatic pressure controlled shutdown upon trigger release for low energy consumption
- Adjustable aluminium push handle provides easy manoeuvrability and accessory storage
- Easy Press trigger gun, ergonomically shaped to reduce operator fatigue
- Integrated accessory storage on the back of the unit with additional cable fixing
- Dirtblaster nozzle increases cleaning performance and coverage over a larger areas
- Triple nozzle provides optimum cleaning flexibility and effortless changeover of cleaning jets

C 32K0008    
CX 32K0009

Kärcher HD 728B Cage Petrol Pressure Washer

A robust, mobile petrol-driven high-pressure cleaner ideal for cleaning applications where no power supply is available. The air cooled 5.5 HP 4 stroke engine can operate for up to 2 hours continuously on a single tank of fuel.

- Rugged pump unit with brass cylinder head is designed for long periods of operation
- The engine shuts down automatically if oil levels drop below the minimum level
- An in-built safety valve reliably protects the unit against over-pressure
- Detergent suction hose enables a regulated flow of detergent usage when in low-pressure mode
- Accessory holders on the handle and frame keep everything stored away and ready for use
- Tubular steel frame protects components and also features a crane lift facility
- Air cooled 5.5 HP 4 stroke engine can operate for up to 2 hours continuously on a single tank of fuel.

Washer 32K0010   
FRV30 Nozzle 32K0013

Pressure Washers **Xpert**

The Xpert Pressure Washers are designed to meet the demands of daily use in a commercial environment or heavy duty use in a domestic environment.

Kärcher Xpert 1 Pressure Washer

This machine features a rugged 3 piston axial pump, stainless steel pistons, brass water inlet, brass cylinder head, stainless steel lance, water flow control, heavy duty wire braided hose and shock resistant machine casing. Every major component is toughened to provide optimum power, durability and prolonged service life for the user.

- Power: 2.3kW (240v)
- Water Flow: 480 litres per hour
- Pressure: 160 bar max
- Hose: 10 metres high pressure wire braided
- Dimensions: 360 mm x 375 mm x 925 mm
- Weight: 25kg
- 400 mm stainless steel rotating spray lance
- Twin nozzle

32K0015
  

Kärcher Xpert Deluxe Pressure Washer

This deluxe machine features a rugged 3 piston axial pump, stainless steel pistons, brass water inlet, brass cylinder head, stainless steel lance, water flow control, heavy duty wire braided hose and shock resistant machine casing. Every major component is toughened to provide optimum power, durability and prolonged service life for the user.

- Power: 2.3kW (240v)
- Water Flow: 480 litres per hour
- Pressure: 160 bar max
- Hose: 15 metre high pressure wire braided
- Dimensions: 360 mm x 400 mm x 925 mm
- Weight: 32kg
- 400 mm stainless steel rotating spray lance

32K0016
  

Arco strongly recommend that a free site survey is carried out to assess the suitability of any petrol or diesel driven pressure washer before purchase. Contact your local branch for details.

Kärcher HDS 5/11 U Hot and Cold Pressure Washer

The new HDS 5/11 U is designed to be as easy to use and transport as a Kärcher cold water pressure cleaner, but with the added cleaning performance that comes from using water heated to 80°C. With simple OFF-COLD-HOT operation, the 5/11 U is the perfect machine for light-medium duty cleaning tasks.

- Large, robust wheels
- Triple nozzle with three settings giving up to 40% more cleaning power
- Super-efficient Kärcher® burner technology
- Safety lock to prevent transportation spillages
- Visual fuel gauge
- Durable pump set with brass cylinder head
- Fine debris filter
- Overheating prevention

32K0019

Kärcher HDS 6/12 Compact Hot, Cold and Steam Pressure Washer

The HDS 612 C is a compact, high performance hot water and steam pressure cleaner.

Designed to provide exceptional cleaning power for a wide range of cleaning applications, the 612 features water flow and pressure control on the lance, a user-friendly single button control panel with LED indicators, and internal fuel and detergent tanks within the chassis.

- Servo Control for instant adjustment of water flow and pressure at the gun
- Flue gas temperature limiter switches off the drive motor if the flue gas exceeds 300°C
- Burner is automatically switched off when the supply of water is low
- Tools and accessories can be stored under the machine cover

32K0021

Kärcher HDS 7/10 4 M Hot Cold and Steam Pressure Washer

Kärcher's new generation single-phase HDS hot water cleaner, with innovative features such as the eco! efficiency mode, offering fuel savings of up to 20% without compromising cleaning performance. The 7/10 4 M is ideal for medium duty cleaning tasks.

- 4-pole, air-cooled electric motor with long-life bearings
- 3 piston axial pump with ceramic pistons
- 3-year heater coil warranty
- Simple, user friendly control panel with LED warning and service display
- Service switch to accurately meter machine protector chemical and call up service information
- Eco! efficiency mode offering 20% fuel savings over previous models and full water flow at 60°C
- Pivoting 1050mm stainless steel spray lance
- Flue gas temperature limiter switches off the drive motor if the flue gas exceeds 300°C

32K0023

Kärcher HDS 801 B/D Hot Cold and Steam Pressure Washer

Hot water high-pressure cleaner with internal combustion engine built on a corrosion resistant tubular steel frame, offering all-round protection for components.

Ideal for cleaning applications where there is no power supply available. Built with an air cooled four stroke 5.5 Hp Honda petrol engine (HDS 801 B) or 4.8 Hp Lombardini diesel engine (HDS 801 D).

- Ideal for construction, agriculture and local councils
- Designed with powerful and reliable engine with pull starter and built-in generator
- The engine shuts down automatically if oil levels drop below the minimum level eliminating the risk of the engine running dry
- Clearly laid out control panel with self explanatory symbols
- Safety valve protects the unit against over-pressure
- Convenient accessory holders and a push handle

32K0021

Sweepers

Kärcher KM 70/15 Manual Sweeper

Sweeping 7x faster than a conventional broom, the 70/15 also controls dust better and guarantees consistent, thorough results. Featuring an adjustable side brush for cleaning right up to kerb edges. Ideal for cleaning paths, halls and warehouses quickly and efficiently.

- The main roller brush is driven by both wheels to ensure consistent rotating speed
- Dirt picked up by the roller brush is swept directly into the waste container by the dust pan and brush cleaning principle
- A minimum amount of physical effort is required as the sweeper is light and easy to manoeuvre
- The side brush is height-adjustable in four positions to suit different surfaces
- Ergonomically shaped 20 litre container aids easy handling and emptying
- Push handle folds down completely reducing the storage space needed

32K0048

Kärcher KM 75/40 WP Vacuum Sweeper Petrol

A user-friendly petrol driven walk-behind sweeper with travel drive. Ideal for cleaning various floor types including asphalt, pavements, concrete, carpets and hard floors. With its Honda petrol engine, the machine offers an average coverage of up to 3375m per hour. This machine is ideal for contract cleaners, logistics, automotive, craft and general industry.

- Simple control panel
- Optimal filling of dirt container due to the overthrow cleaning principle
- Quick changeover of roller brush without the need for tools (adjustable to suit floor type)
- Performance sweeping even on gradients of 15°
- Trolley grip and casters for easy removal, transportation and emptying of waste container
- Collapsible handle for easy transportation and storage
- Easy collection of waste up to 50 mm in diameter

32K0049

Steam Cleaners

Kärcher DE4002 Steam Cleaner

The DE4002 provides deep hygienic cleaning without the use of detergents. Producing steam up to 150°C and with a wide range of standard and optional accessories, the DE4002 is highly versatile and ideal for use in a variety of environments where fast, hygienic cleaning is a necessity. This machine is simple to use and heats up very quickly. With a wide range of accessories the machine is equally suited to detail work around appliances as it is to cleaning floors and walls.

- Two-tank system minimises heating up time and allows for continuous operation
- Variable control of moisture content, from steam to hot water jet
- Large 2.4 litre capacity producing up to 4000l of steam
- Fully insulated rust proof aluminium steam boiler keeps the heat in
- Ergonomic handle and protective design enables easy transportation and protects it from knocks

Scrubber Driers

Kärcher scrubber driers hygienically clean floors, guaranteeing a brilliant performance and a difference you will instantly see.

Kärcher BR 40/10 Scrubber Drier

The BR 40/10 is designed for heavy duty cleaning of small to medium floors. Featuring two counter rotating brushes and two rubber squeegees, ensuring floors are thoroughly cleaned and dried in a single pass. The machine can be used for deep cleaning of heavily soiled floors where more scrubbing and detergent is needed.

- Large (10 litre), separate fresh and dirty water tanks for easy handling and cleaning
- Variable brush contact pressure for superb results on different floor types
- A variety of brush and pad types available for different floor types and degrees of soiling
- Key components are easy to clean and replace without the need for tools
- Current surge protector as standard
- Hygienic – no direct contact with dirty water
- Easy to transport with removable wheels stored on board

Accessories

Soft white roller brush: For cleaning sensitive floors and polishing.

Soft natural roller brush: For spray cleaning and polishing.

Medium Red roller brush: For normal use.

High/Low orange roller brush: For cleaning heavily structured floors and crevices.

Hard green roller brush: For heavily soiled floors.

White microfibre roller brush: For fine stoneware tiles.

Kärcher BR30/4 C Scrubber Drier

Using a BR 30/4 C is faster, easier, more hygienic and safer for users and public than mopping, leaving floors instantly clean, safe and usable. Its four litre clean and dirty water tanks are fully removable to clean and refill, while the roller brush and squeegees can be removed and replaced without tools.

- Hygienic – no direct contact with dirty water
- Instant drying – no wet floor hazard
- Continuous use of clean water – no reusing of dirty mop bucket water
- Continuous brush pressure and high brush speed ensure a fast and even finish
- High suction power leaves floors clean and dry in a single pass
- Vacuum-off facility for deep scrubbing

Accessories
